

HAPCO

MUSIC YOUTH ARTS

Project title: Arts in the Classroom

Purpose and Scope: *Jazz Master Class*

HAPCO Music Foundation has a series called “Arts in the Classroom” in which HAPCO matches art professionals with youth in all grade levels to all art forms. Our goal is to give our youth the tools and skills needed to use the arts as a vehicle for education or as a profession. We match art professionals with youth community programs and or classroom settings and the professionals conduct an educational symposium to meet our goals of increasing access to the arts and the knowledge of the art form presented. It is an effective, hands-on learning method for youth to learn from professionals in art fields including music, visual arts, theatre, writing and dance. In the Jazz Master Class, the youth will improve their performance skills in full ensemble rehearsals, sectionals, master classes, combo workshops, as well as theory, jazz history and improvisation training. The class is designed to accommodate musicians ranging from the less experienced to the most talented, with a minimum of one year of training on their chosen instrument.

GOALS

- MPA participation. Attendance or Jazz Solo and Ensemble participants
- Improve musical skill level – Improvisation skills
- Increase class size from current level (participation)
- Increase in interest level of participating students
- To provide youth a sense of accomplishment, thus increasing their self-esteem

Weekly on Wednesday: 1:30pm – 3:30pm

Brief History: *“Building futures through music, art, and education.”*

The fundamental principle of our mission focuses on serving the needs of youth in arts education. Since 2001, HAPCO Music Foundation, Inc. has worked to support educational arts programs, particularly in low-income communities. Our mission confirms our obligation to raise the awareness of music and the arts, with particular emphasis on schools and our community.
