

HAPCO

MUSIC YOUTH ARTS

Project Title: *Echoes Throughout Time*

Purpose & Scope: *Understanding the Origins, History & Purpose of Popular Music Throughout History.*

HAPCO Music Foundation has a series called “Arts in the Classroom” in which HAPCO matches art professionals with youth in all grade levels to all art forms. Our goal is to give our youth the tools and skills needed to use the arts as a vehicle for education or as a profession. We match art professionals with youth community programs and or classroom settings and the professionals conduct an educational symposium to meet our goals of increasing access to the arts and the knowledge of the art form presented. It is an effective, hands-on learning method for youth to learn from professionals in art fields including music, visual arts, theatre, writing and dance.

In *Echoes Throughout Time*, the youth will be immersed in a journey through the history of any genre they collectively decide to learn about. Through this process they will learn more about the genre of music and how it’s written, while learning how to discern forms of songs, different styles of poetry/song writing, as well as literary functions used in music i.e alliteration, metaphor’s, simile etc. It will develop their understanding of culture, the way music has influenced history in our culture in the past & how it’s connected and influences the present.

GOALS

- Improve understanding of general music concepts such as rhythm, time/beat, harmony and melody.
- Using multimedia resources, popular music and history books to teach the students about the origin of music its effects on society at large and them personally.
- Learn the effects that music has on the human body, mind and other mediums in nature and how that effects our environment and health.
- Increase class size from current level (participation)
- Increase in interest level of participating students
- To provide youth a general overview of music as it pertains to their history in modern society, thus increasing their self-esteem and self awareness.

Weekly on Wednesday: 1:30pm – 3:30pm

Brief History: *“Building futures through music, art, and education.”*

The fundamental principle of our mission focuses on serving the needs of youth in arts education. Since 2001, HAPCO Music Foundation, Inc. has worked to support educational arts programs, particularly in low-income communities. Our mission confirms our obligation to raise the awareness of music and the arts, with particular emphasis on schools and our community.
